

Philip Pierce

Senior Software Developer — C# and Python. 25+ years.

Remote
piercep@builtwithclaude.tech
728-240-2334
builtwithclaude.tech

I build the systems that millions use — from game engines to enterprise backbones. 25+ years across enterprise, mobile, and cloud. C# and Python developer who ships things that work, scale, and last. Functional programming paradigm across all languages. Remote senior roles — full-time, part-time, or contract.

Google · Boeing · Pfizer · Verizon · CBS Sports · Prudential · US Army · Humana · Aetna · DirecTV · Jeep · Mercedes · Ally Bank · Brinks · Broderbund · Oklahoma Highway Patrol

SKILLS

Enterprise & Backend

C# & .NET Python ASP.NET Core SQL Server
PostgreSQL SQLite REST APIs Azure AWS
Multi-threading Distributed Systems
Functional Programming

Additional

Unity 3D AI / ML VR / AR Cryptography Agile
JavaScript .NET MAUI Avalonia Docker
Technical Editing

SELECTED WORK

1B+ downloads

Temple Run 2 — Lead Developer

Led architecture, gameplay systems, and performance optimization across iOS and Android for one of the most downloaded mobile games in history. Also shipped Rail Rush (featured at Disney hotels), Google Project Tango (contracted by Google directly), CBS Fantasy Football, and 10+ other titles.

Boeing 787 IMS

Designed and developed the Inventory Management System that tracks every part used in the production and maintenance of the Boeing 787 Dreamliner.

Verizon Security

Built the internal security system for a new Verizon hardware testing facility — access control, monitoring, and audit trail infrastructure.

🏆 AT&T Hackathon Winner

Best Mobile App — selected from 750+ developers at AT&T Developer Summit, Las Vegas.

🏆 PayPal Battlehack Runner-Up

Best Windows 8 App — recognized for innovation at PayPal Battlehack, Miami.

🎓 Stanford Certificates

Advanced AI, Applied Cryptography, and Robotic Car Programming — Stanford University.

📖 Technical Editor (4 Books)

Multithreading in C# Cookbook, NGUI for Unity, C# Multithreaded and Parallel Programming.

CODE NINJA BOOT CAMP

Founder & Instructor (5 Years)

Intensive six-month coding program teaching C#, Python, Agile, functional programming, SQL, SQL Server, and SQLite. Every cohort sharpens the ability to explain complex systems clearly — a skill that translates directly to engineering teams.

C# Python SQL & SQL Server SQLite Agile Functional Programming

WHAT CLIENTS SAY

Philip had great ideas of how to overcome some difficult obstacles, and created a far better AI than we asked.

BC Games — Bryant

The project was a resounding success. Working with Philip was an essential part of this success.

Rival Schools — Malcolm Overend

Philip stood out beyond all others. With his extensive history and previous achievements he was a perfect match.

40APM Studios — Matt Peterson

ADDITIONAL CLIENTS & EXPERIENCE

Console Developer Licenses: Xbox X/S/One/360, PlayStation 5/4, Nintendo

Android Developer Challenge — Winner, Productivity Tools category

Google Project Tango — Contracted by Google to design and develop official Developer Demo Apps

Additional clients: Circuit City, Florida Realty, Kobelco, Homes.com, IDN, Nim Diet, HBDC
